EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 8, line 5; After ~~—vacuum—~~, Insert ~~—~~.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach and/or suggest an electrode of a secondary battery being made of a metal oxide base from the group of LiCoO_2 , LiNiO_2 , V_6O_{13} and V_2O_5 having a porous film coating the base being made of a metal, metal oxide or a carbon. None of the prior art suggests the use of the porous film coating over the metal oxide base. The method of fabricating an electrode of such a structure is also not taught or suggested. The applicants have found that by using such a porous film over the metal oxide electrode base which has been stabilized under a vacuum, that the properties of the electrode are improved as seen by their experimental results in their instant specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
